This art form uses brushes, papers and ink which have developed over 3,000 years. You can practice the techniques of famous Chinese artists; study flowers and birds, mountains and rivers to capture their essence; then use these to express yourself. Learning this art form can give you an insight into China, a major culture and an influential country on the current world stage. Explore your own creativity, develop principles and techniques in your own direction. The rhythms of Chinese painting and calligraphy can help you relax and concentrate.
